The 6th Annual

## LION Winter Global Videoconference Broadcast

Tuesday, December 10th, 2013  
(Timing: GMT+1)

Organized by the LION Foundation

The 6th LION Winter Videoconference "State of the Art in Acoustic Devices" will focus on all aspects related to middle ear implants, direct acoustic cochlear implants and bone anchored hearing aids. Various indications, approach, materials and surgical techniques will be discussed via the LION network by combining case presentation, live surgery and lectures. Representatives from Cochlear, MED-EL and Oticon will also report on latest innovations and future developments. The moderating team located in Utrecht will facilitate active discussion to encourage international exchange of knowledge and ideas in this field. You can follow this event via the LION website and interact with the surgeons and moderators by e-mail or chat room. Further information and a final program will be available online. We look forward to your on-line participation in this Global event of Quality Continuing Medical Education through videoconferencing technology.
